FOREWORD

SERVICOM, a brain child of the Federal Government of Nigeria, was inaugurated as a Service Compact between the Federal Government and the Nigerian people for the improvement of service delivery in all arms of the Federal Parastatal. This laudable programme was instituted due to observed decay in the system and the poor attitude in the implementation of government policies. The major driving force is the provision of quality service to all in Nigeria to sustain hope in the future of the NATION.

The University of Uyo SERVICOM Charter is therefore out to address the above government policies. This Charter is an outline of our vision and mission for the University, the services provided to the University Community and the general public, our performance target and customers’ expectation and obligation. It also highlights ways of redressing service failures when identified for enduring quality service provision.

It is our collective resolve as a University, to ensure our sincere adherence to its guiding principles for quality service delivery at all times to our community and the nation at large.

Remember, your service is a seed for the development to the nation. Plant a good seed!

Prof. (Mrs.) Comfort M. Ekpo
INTRODUCTION

As a centre of excellence in teaching, learning and research, the University of Uyo was established in October 1991, by the University (miscellaneous provision) Decree No. 11, published in the Supplement to Official Gazette Extraordinary No. 1 Vol. 80 of January 20, 1993; to produce personnel in areas of need; conduct research in identified problem areas within and outside its immediate locale; stretch out to solve local problems; as well as provide community service through the application of its research findings.

The University of Uyo has a population of 16,676 undergraduate and 2,804 postgraduate students in twelve Faculties, distributed into 86 academic programmes in 78 departments. There are also 1,247 students in the sandwich/Diploma/certificate programmes and 394 students in the pre-degree/basic studies programmes. The University has 1,451 academic staff and 3,784 non-teaching staff altogether.

In recognition of the functions of the University of Uyo, this charter seeks to highlight the different services rendered by the University to her students, staff, the immediate community and other stakeholders. It also elaborates on the different services provided, the responsibility of the service provider, the obligation of the clients and the process of redressing service failures.

Stakeholders of the University are those persons and groups who contribute to or whose lives are affected for better by the existence
of the University; and who, therefore, are expected to show interest in the development of the University.
